

Madison Inferno Volleyball Club

Coach Profile: Dylan Griffith

Coaching Philosophy:

One of the main pillars of my coaching philosophy is the amount of work a player is willing to put in, is how much they will get out.

Finding the best way to communicate and motivate individual players is something I strive to do. This a crucial aspect to the success of both the athlete and their team. One of my core values as a coach is to create a welcoming space for all athletes to feel included and supported both on and off the court.
